

# Day

The sun shines  
during the day.

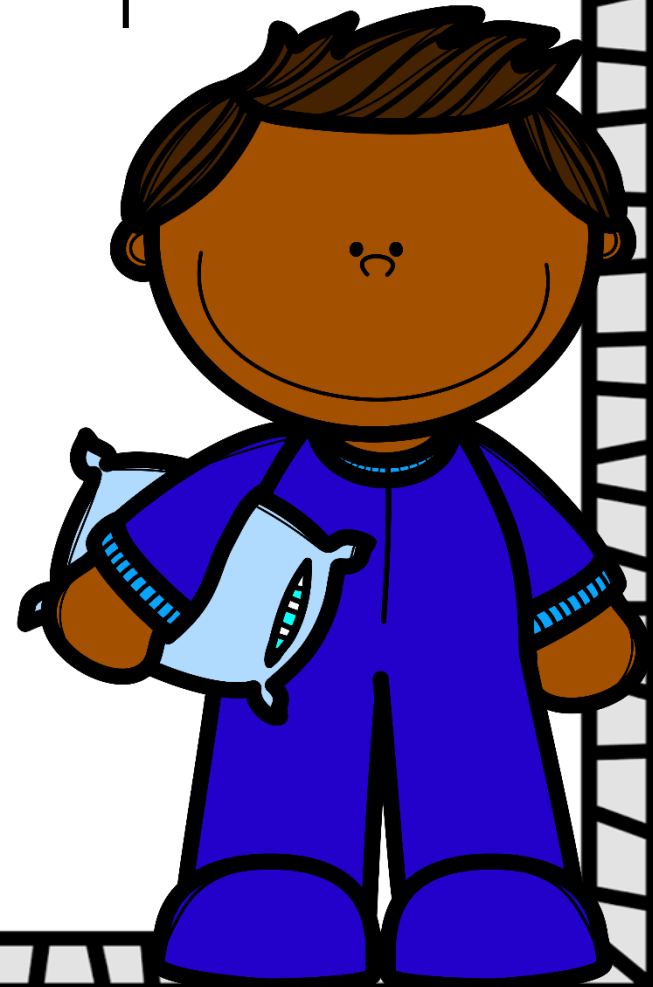

# Night

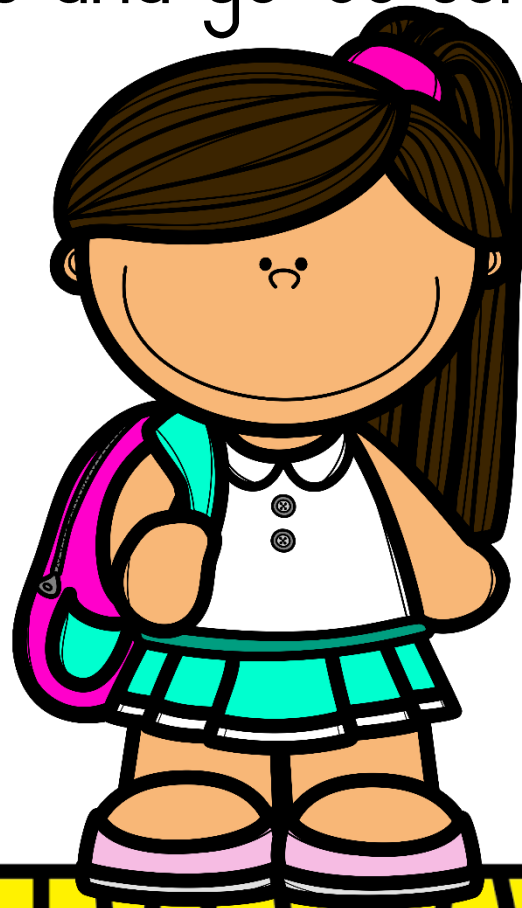

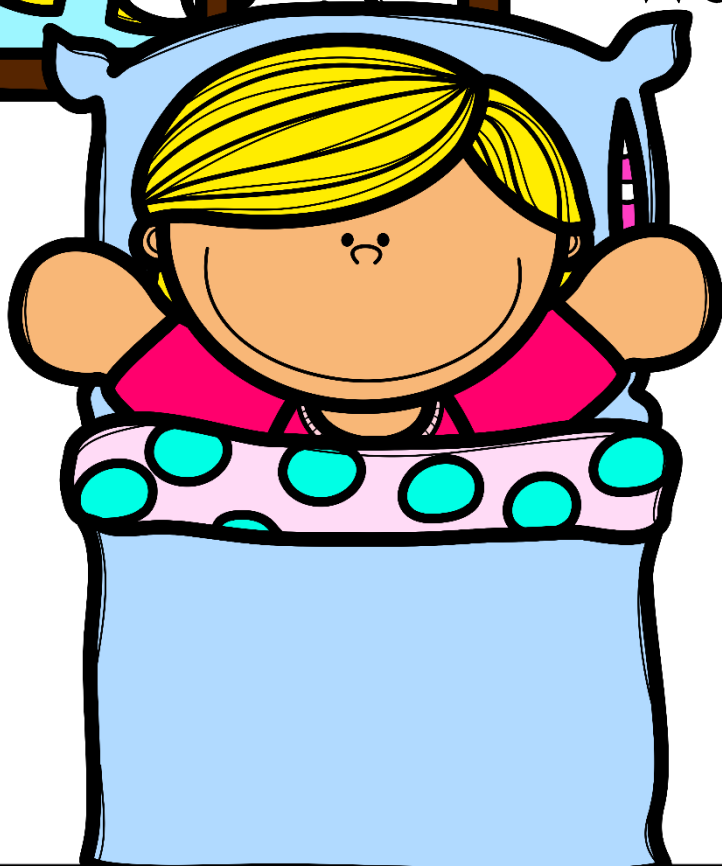

- The moon and stars shine at night.
- It is dark outside.

- At night we eat supper.
- We then take a bath and brush our teeth.
- We then go to sleep.

- We wake up in the morning when the sun comes up.
- We eat our breakfast and brush our teeth.
- We dress and go to school.

When we come home from school we can play outside while the sun is shining.
