

Grade 1
Life skills
Term 4

Name and surname:

Types of homes

Your home is the place where you live. In South Africa, people live in many different kinds of homes. Use the words below to name the different homes.

flats

double storey house

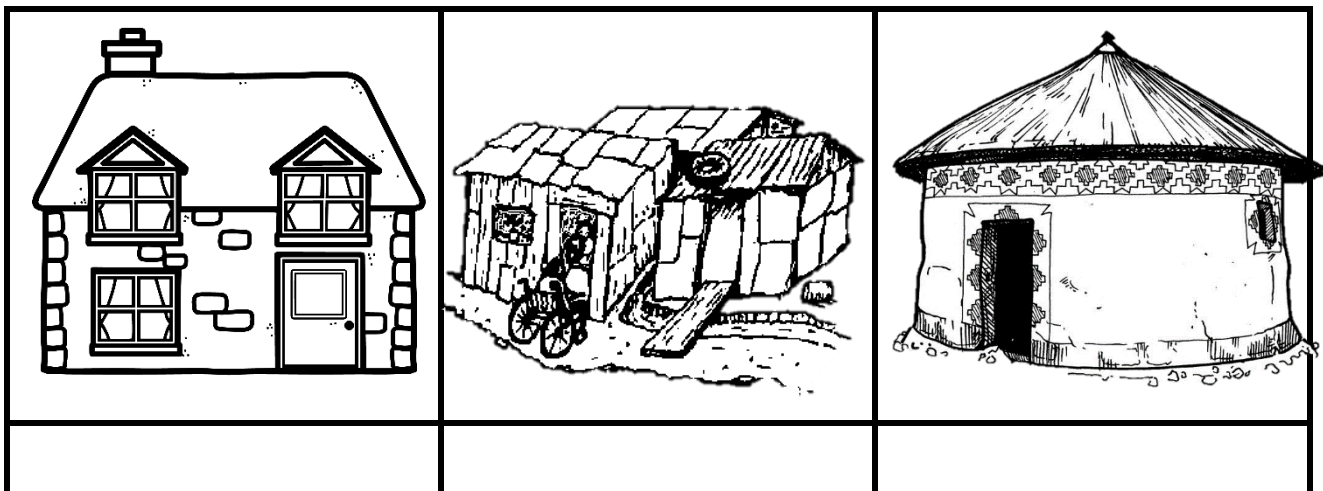

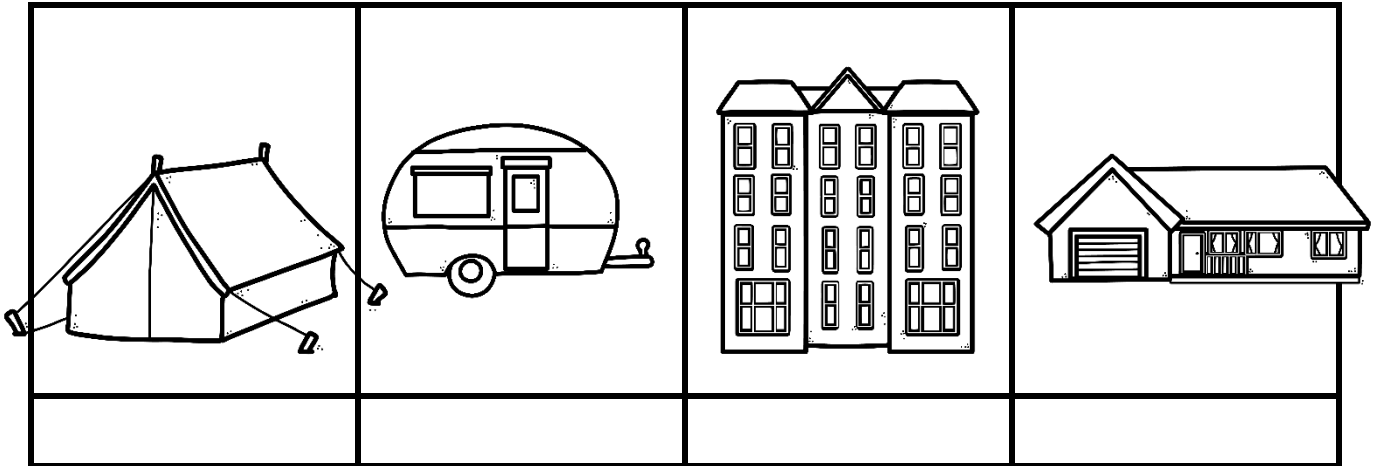

caravan

tent

informal housing

traditional home

single storey home

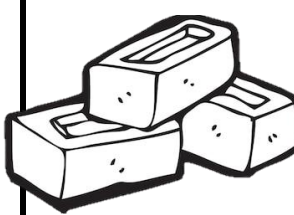

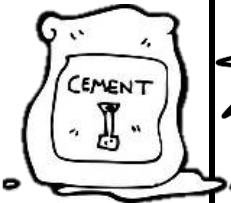

Homes keep people safe from different kinds of weather. They can protect us against the hot sun. They can also protect us against cold, wind and rain.

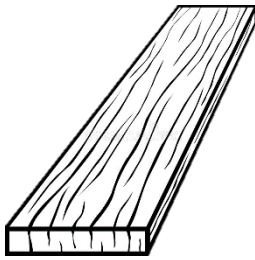

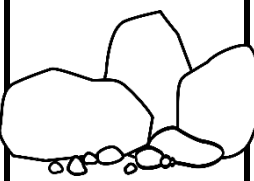

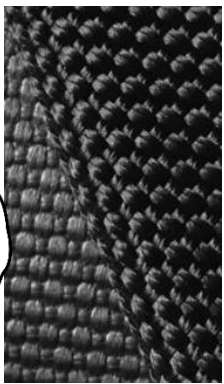

In a good, strong house we do not get too cold or too hot. We do not feel the rain or the wind. Many people are not protected like this.

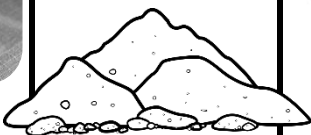

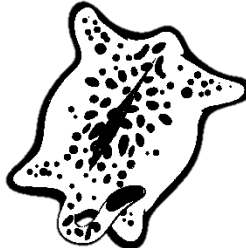

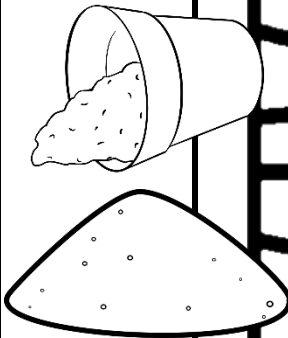

What different homes are made of

We use many different materials to build houses.

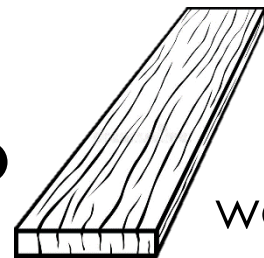

| | | | | |
|---|---|---|--|---|
|  |  |  |  |  |
| bricks | tiles | corrugated iron | cement | straw/ reeds |

| | | | | |
|--|---|---|--|--|
|  |  |  |  |  |
| glass | poles | wood | stones | canvas |

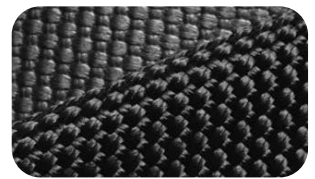

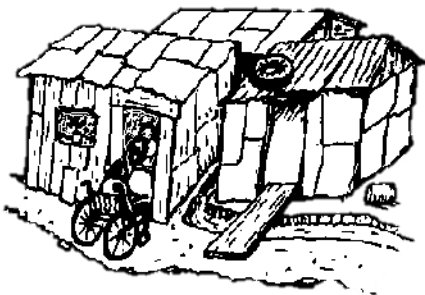

| | | | | |
|---|---|---|--|---|
|  |  |  |  |  |
| plastic | clay/ mud | iron | skin | sand |

What different homes are made of

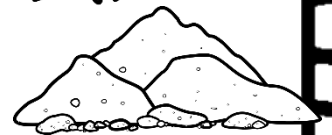

Connect each house with the type of material it is made of.

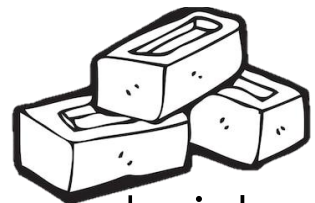

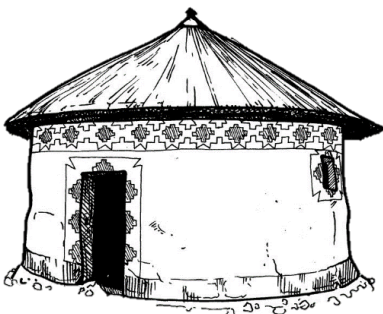

wood

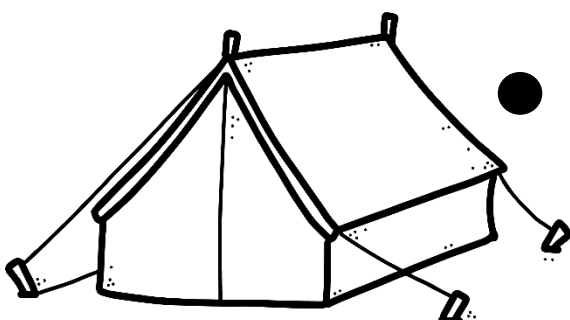

canvas

clay and straw

bricks

corrugated
iron

Different houses

We use many different materials to build houses.

Draw the following houses.

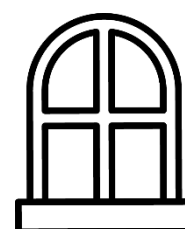

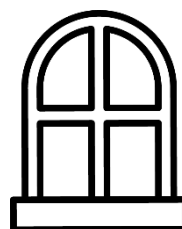

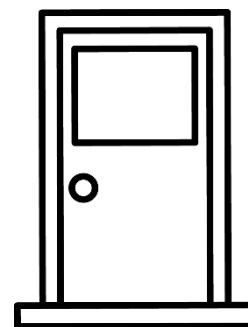

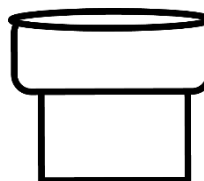

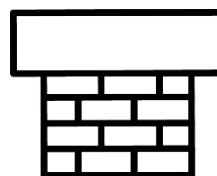

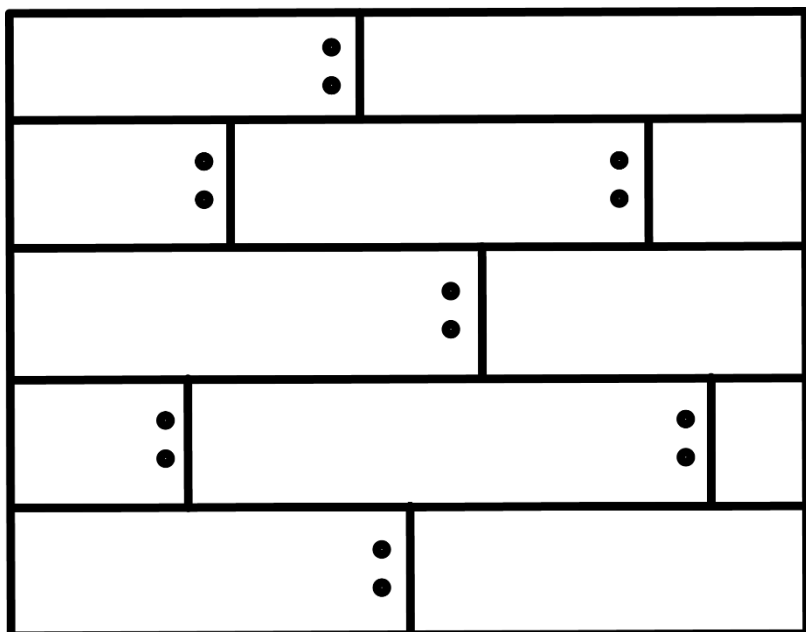

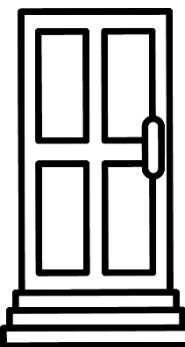

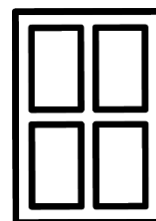

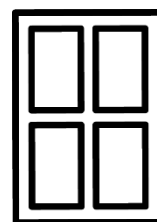

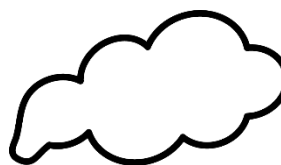

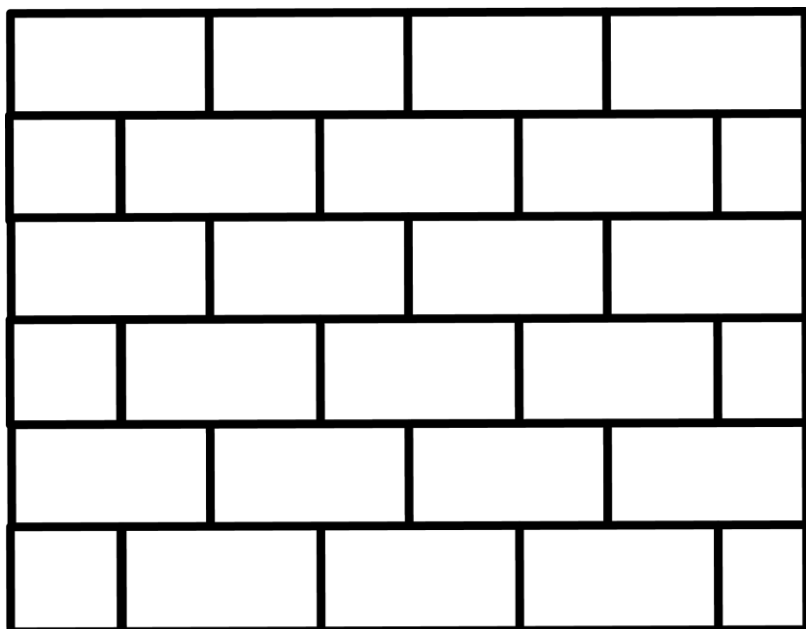

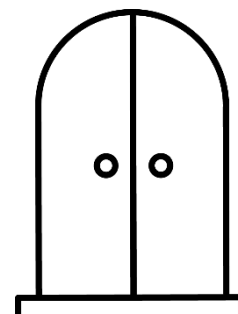

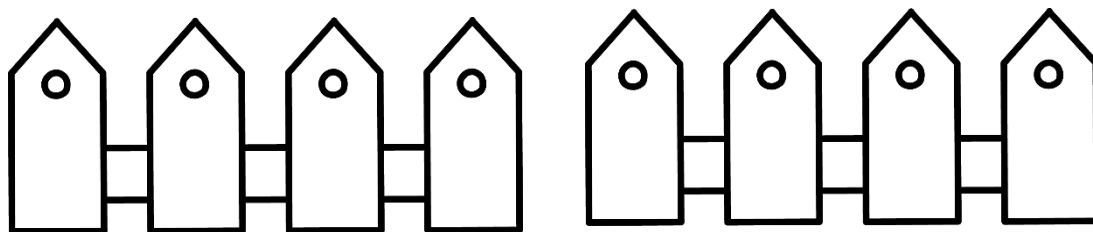

Brick house

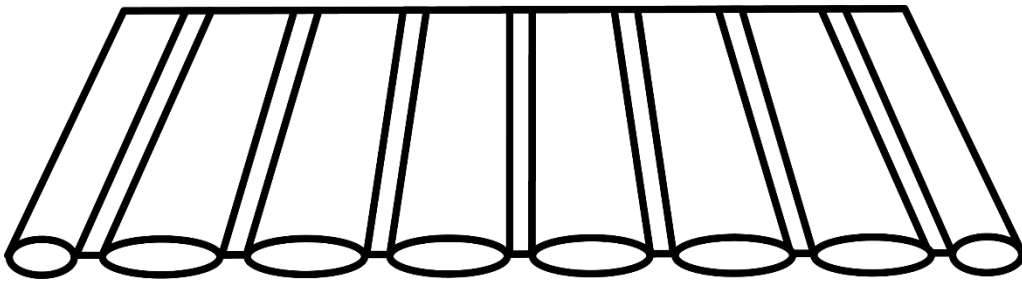

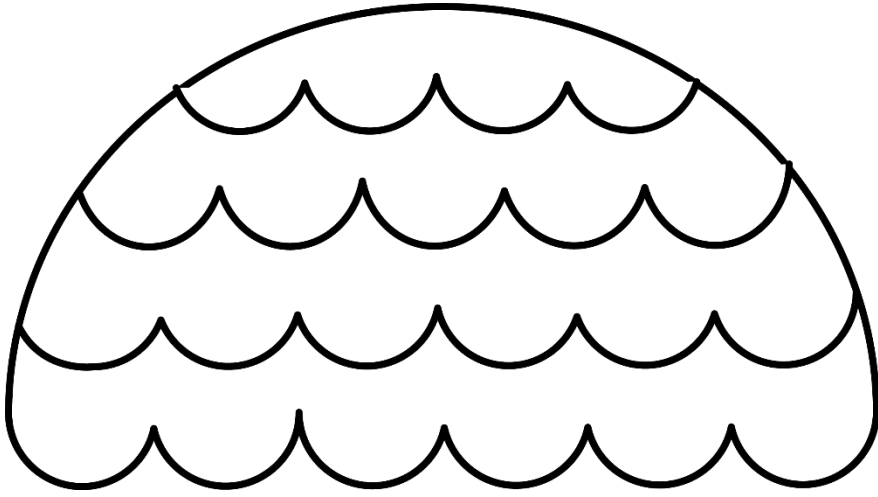

Tent

Clay and straw house

Informal housing

Cut out the different parts of a house and build your own house on the next page. Make your house bright and colourful.

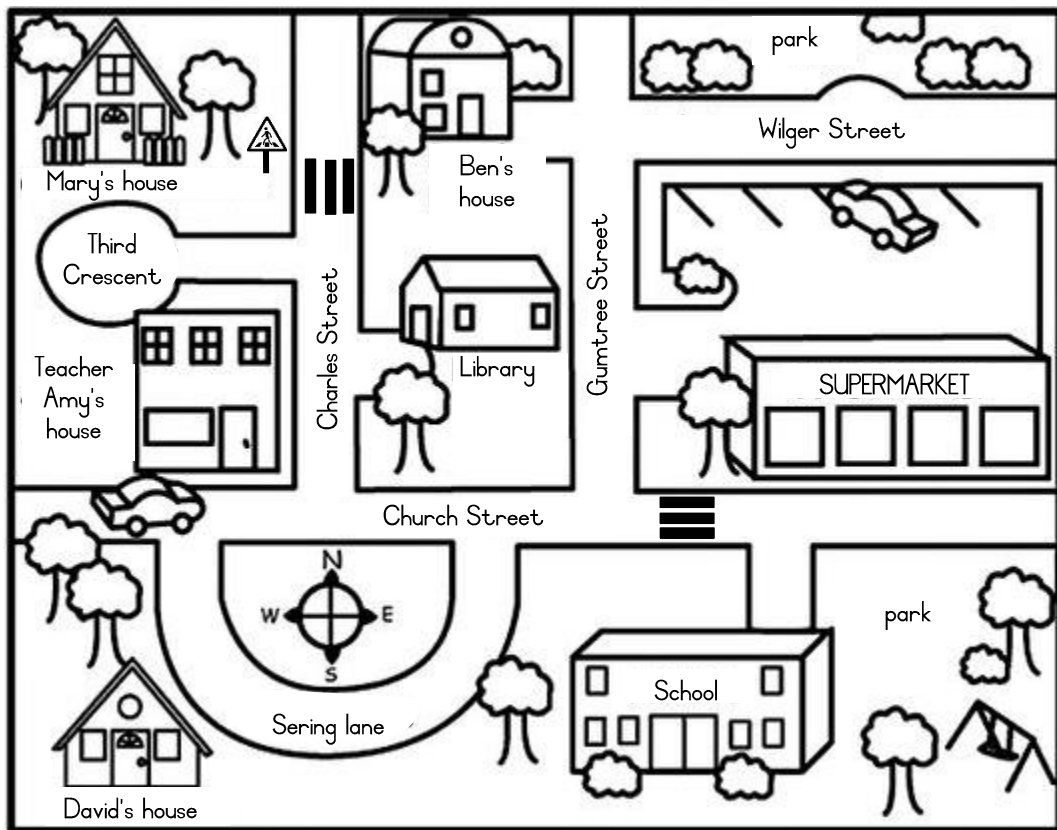

My house

Finding places and things

There are many different kinds of maps. To choose the right map we must know why we want to use the map. Street maps help us to find streets and places in a town or city. Farmers like maps that show things like dams, rivers and hills.

1. Colour the place where you will find books to read yellow.
2. Colour the place where you buy food with green.
3. Colour the place where you learn blue.
4. Circle David's house with red.
5. Colour the places where you can cross the road safely purple.
6. Draw a cross where the parks are in the city.

Explain to your friend what route Mary will follow to walk from school to her house.

My map

Draw your own picture map of the route you follow between 2 places. You can choose any 2 places.

How we use water at home and at school

We use water every day. Write the sentences under the correct picture.

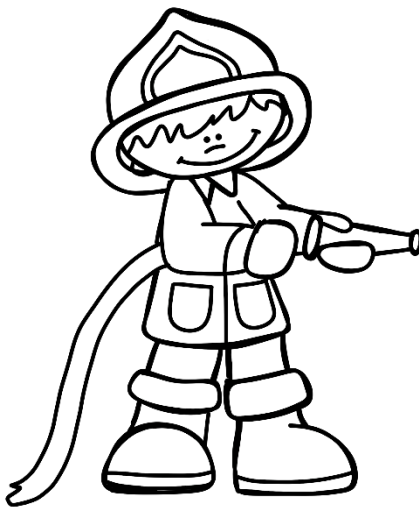

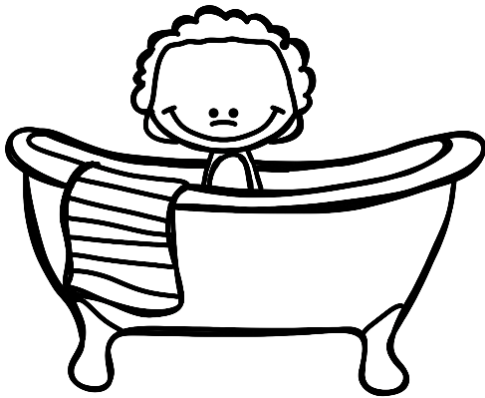

To help plants grow.

To cook food.

To wash clothes

To wash ourselves.

To put fires out.

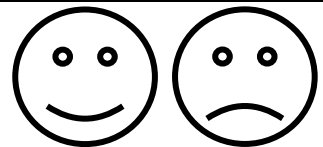

How we waste water

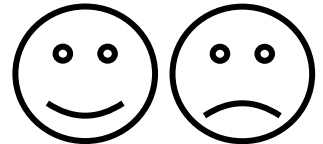

Look at the pictures. Colour the pictures where water is used carefully blue. Colour the pictures where water is wasted red.

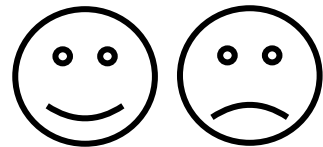

I let the tap run while I brush my teeth.

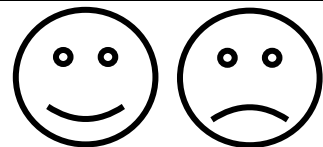

I don't throw away the bath water, I use it to water the garden.

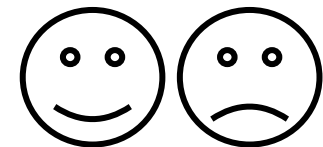

Every night, I bath in a bath full of water.

If I see a tap dripping, I close it tightly.

We wash the dishes under running water.

We save water

Water is very precious, therefore we shouldn't waste it.

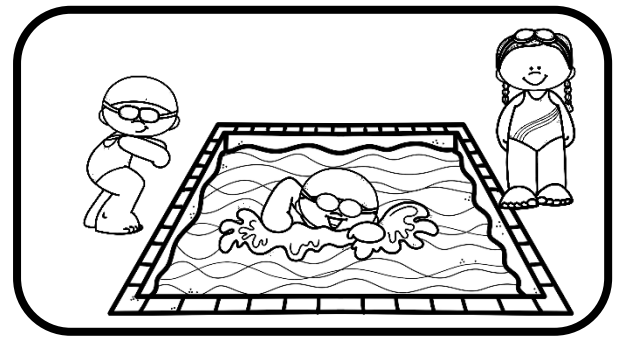

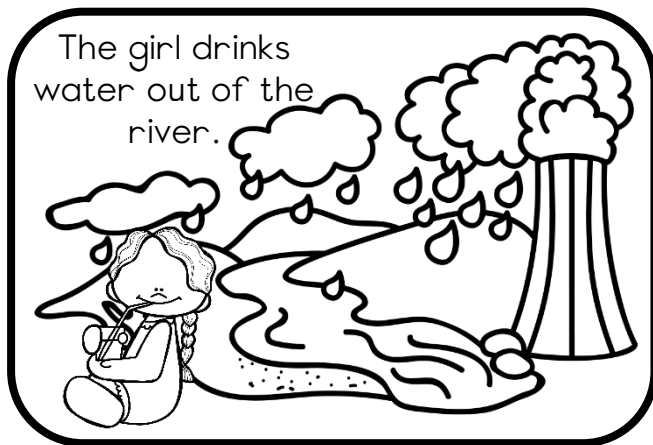

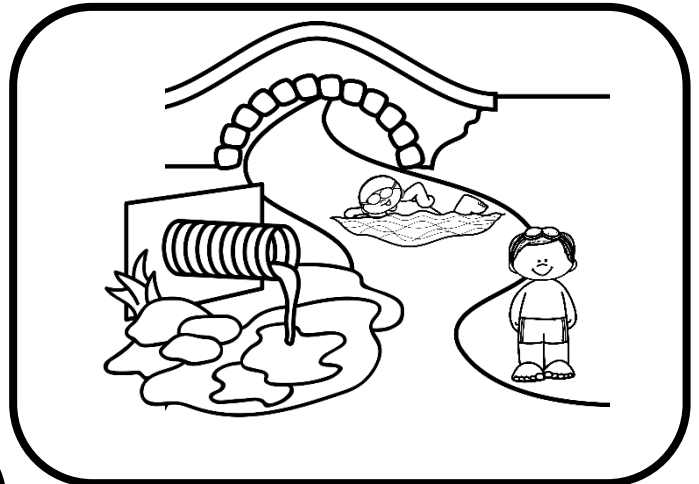

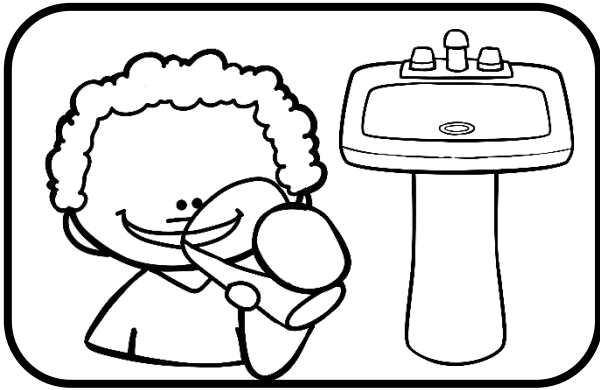

Draw two pictures to show how we can save water. Write a sentence about the picture.

Sentence 1:

Sentence 2:

Safe and unsafe drinking water

Look at these pictures. Colour the pictures showing safe activities blue. Colour the pictures showing unsafe activities red.

Write the word "safe" or "unsafe" to complete each sentence. We have done the first one for you.

1. Drinking dirty water is unsafe.
2. Swimming in dirty water is _____.
3. Drinking boiled water is _____.
4. Drinking water from a polluted river is _____.
5. Drinking clean tap water is _____.

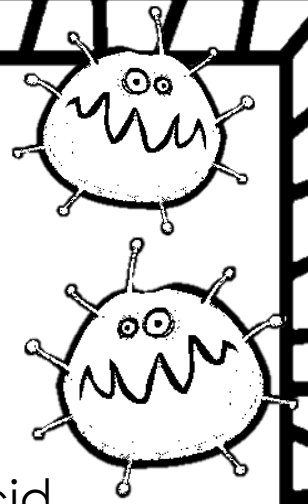

Storing clean water

Water we drink has to be clean.

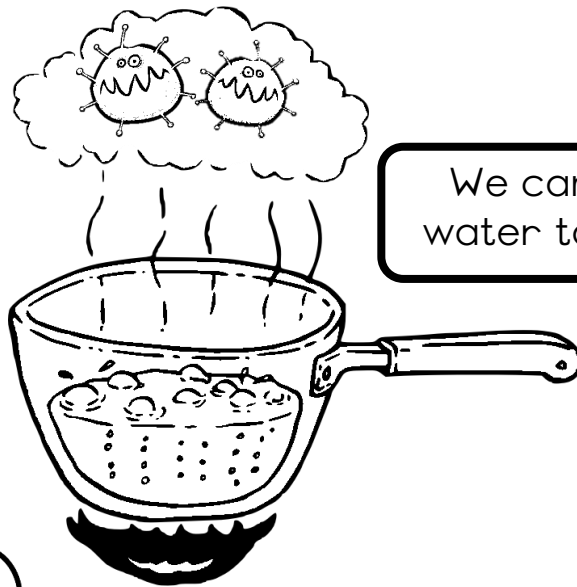

Germs are so small that we cannot see them with the eye.

If we drink the water without first getting rid of the germs, we can get very sick.

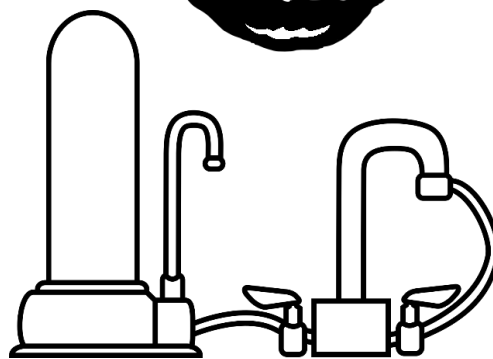

We can use different ways to clean water. We should store the clean water in ways that keep it clean.

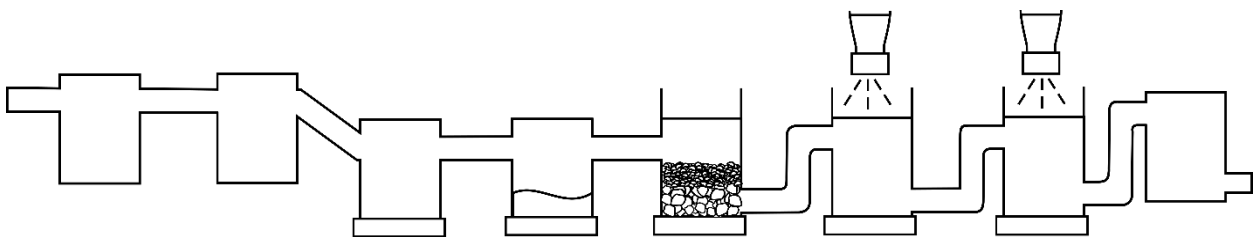

We can use rain water if our roof and tank are clean. If we purify the water, we can drink it safely.

We can boil our water to purify it.

We can filter our water to purify it.

The municipality purifies our water. This makes it clean so that we can drink it safely.

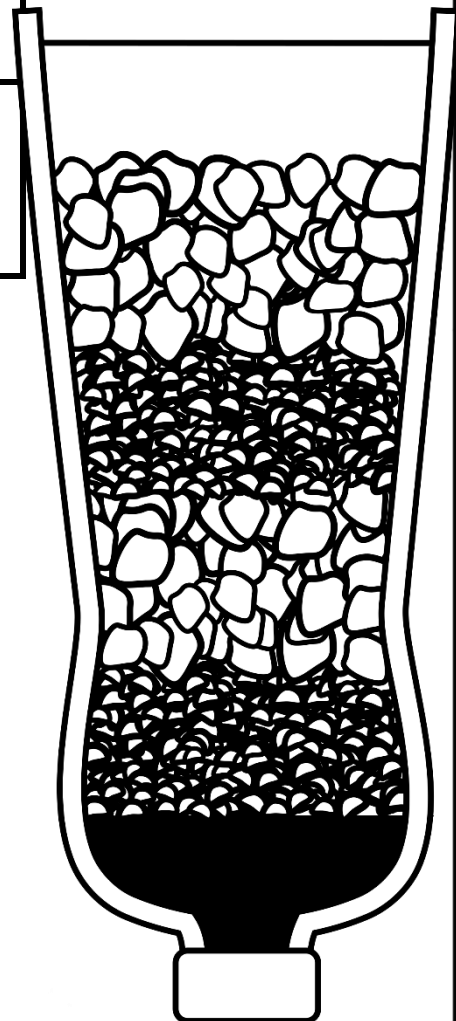

My own water filter

Number the steps in the correct order.

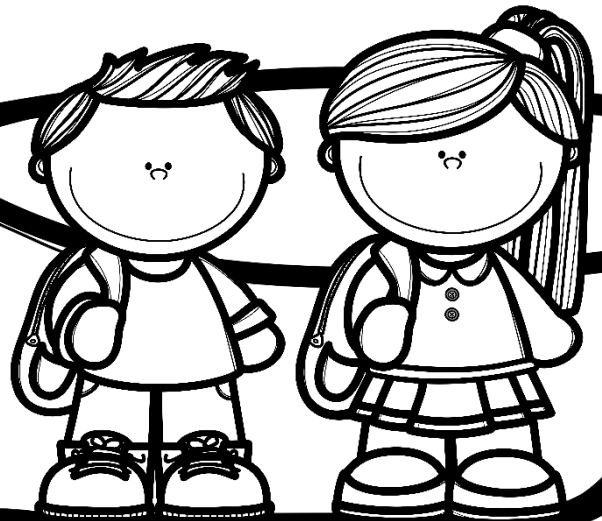

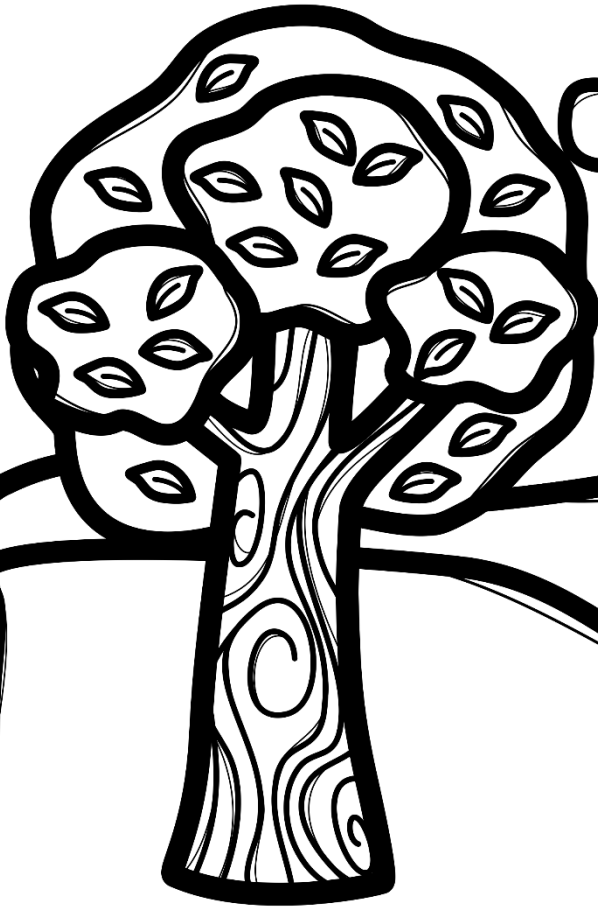

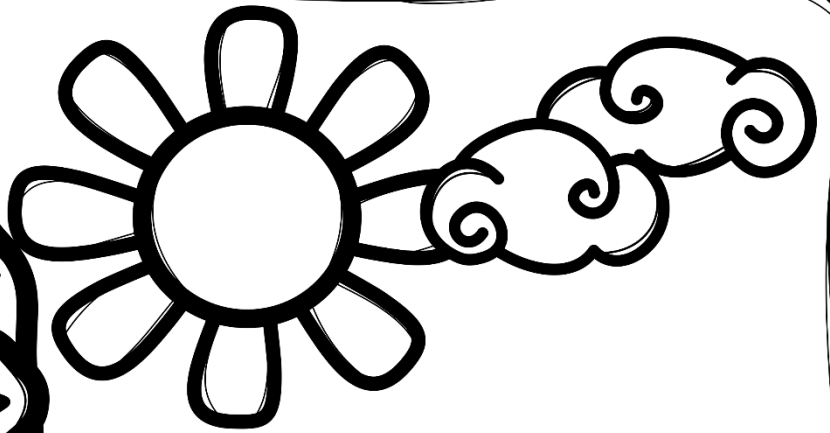

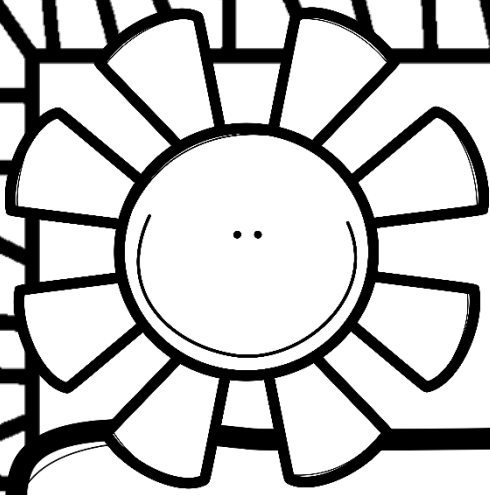

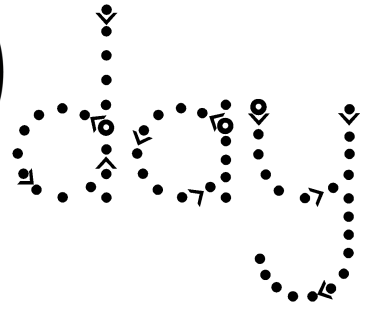

| | |
|--|---|
| | Add fine sand on top of the cotton wool. |
| | Turn the bottle upside down. |
| | Add coarse sand. |
| | Carefully cut the bottom of a plastic bottle. |
| | Pour the muddy water in. |
| | Drop small stones or gravel into the bottle. |

Make your own water filter. You will need the following:

- A 2 litre plastic bottle
- Clean, fine sand
- Clean, coarse sand
- Small stones/gravel
- A sharp knife
- Clean, cotton wool
- Glass of water

day

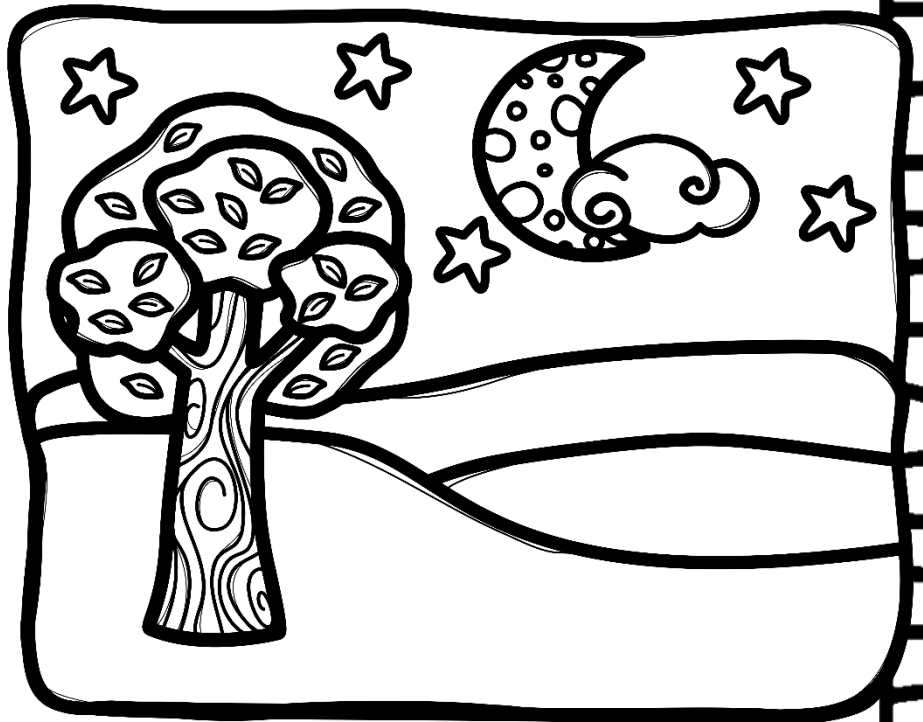

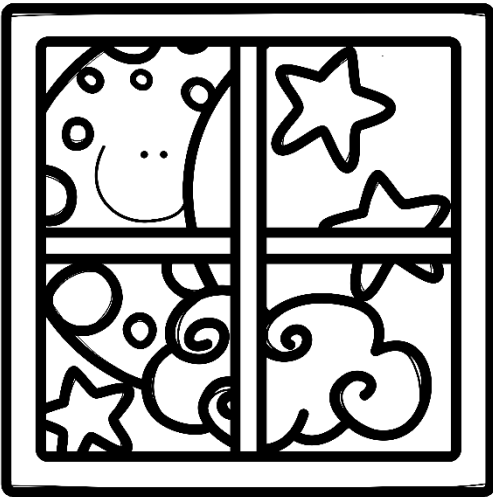

During the day we see the sun shining. The sun gives light and heat. The sky is blue during the day with clouds.

Most people work during the day, and we go to school.

night

night

In the evening the sun sets. It becomes dark and we can see the moon and stars. We have to use lights to see what we are doing.

At night, it is colder than during the day. Most of us sleep at night, but some people work at night. There are animals that come out only after dark.

Sometimes the moon is in the sky during the daytime as well. We can't see it well because the sun is too bright.

Day and night

Use the words in the blocks to complete the sentences.

dark

colder

moon

sun

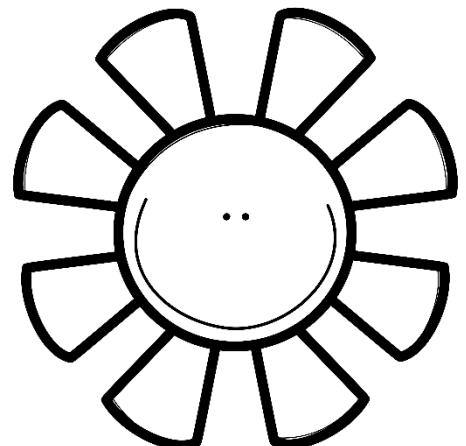

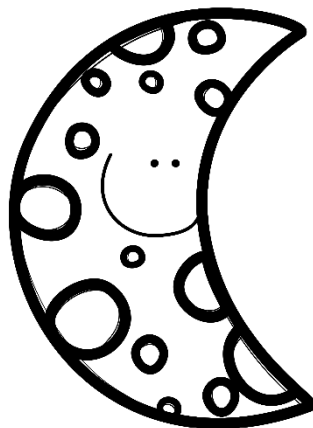

stars

sleep

work

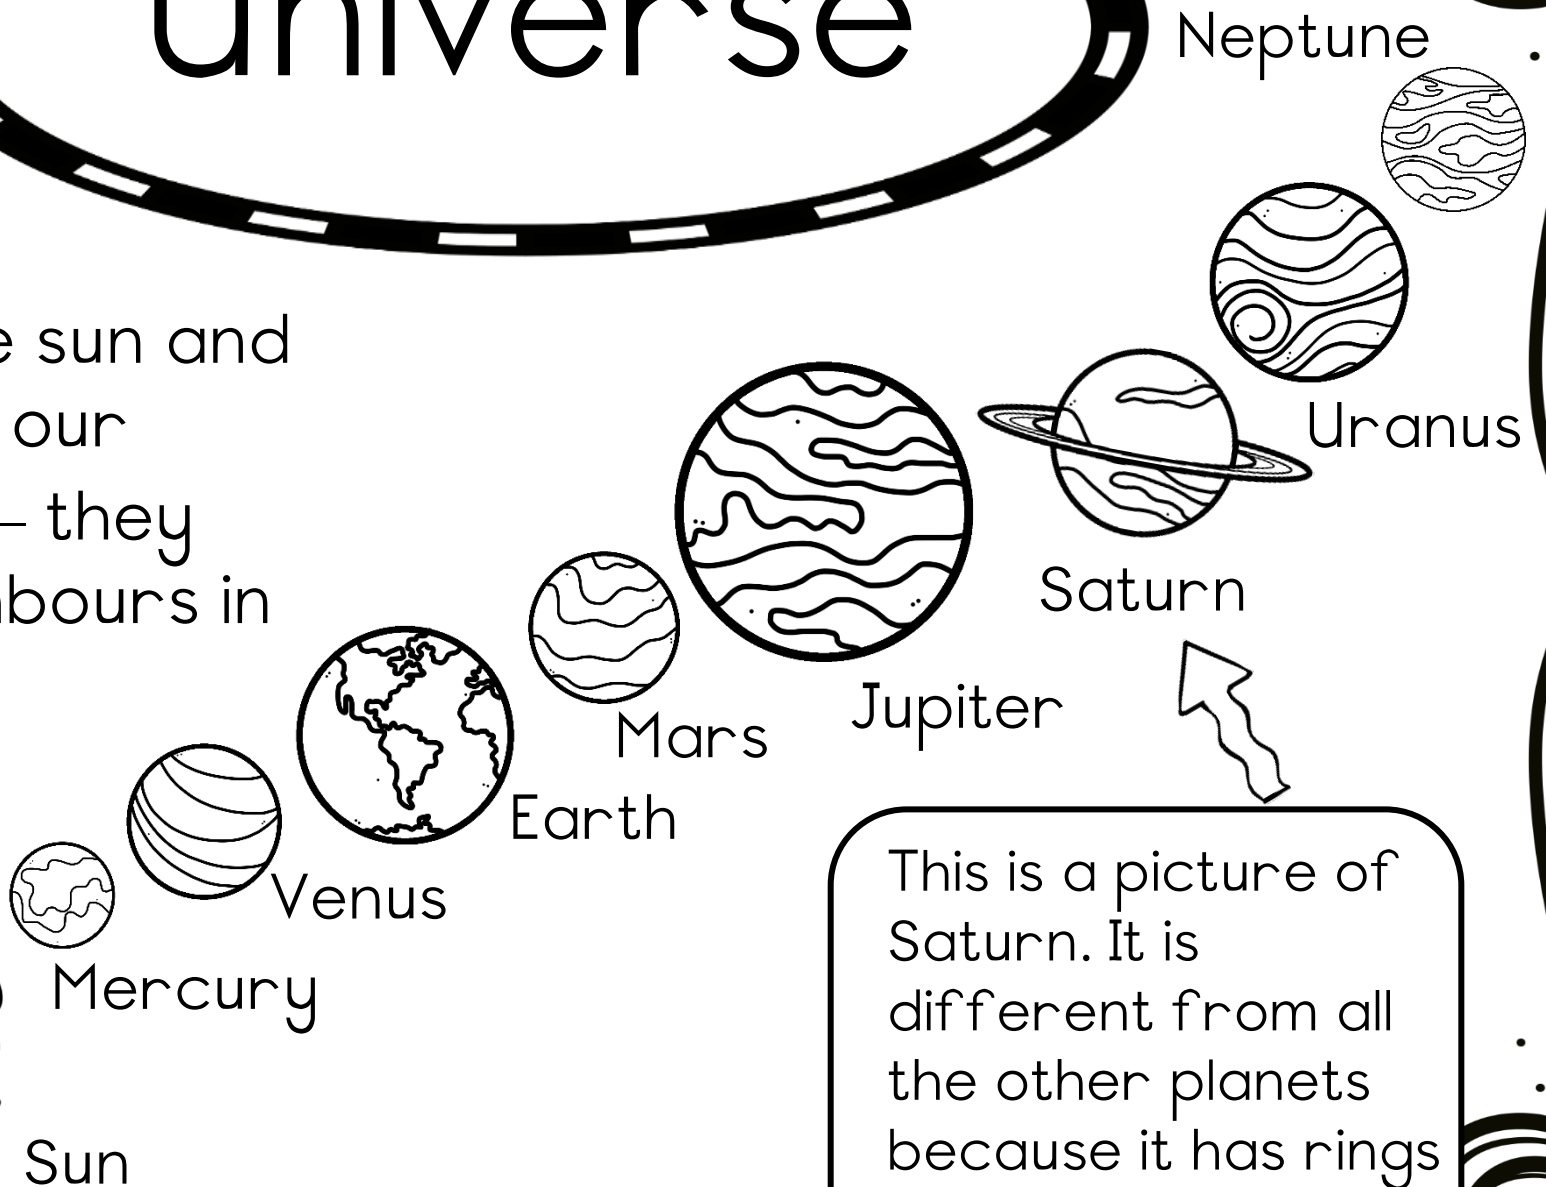

school

1. During the day we see the _____.
2. During the day people go to _____
and we go to _____.
3. At night we see the _____ and
_____.
4. At night it is _____.
5. At night we _____.
6. At night, it is _____ than during
the day.

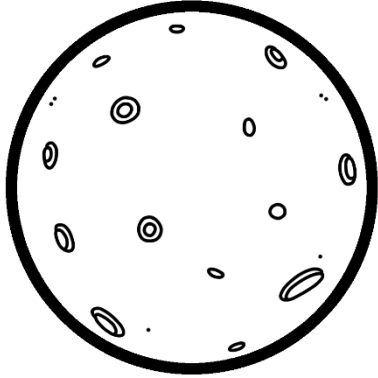

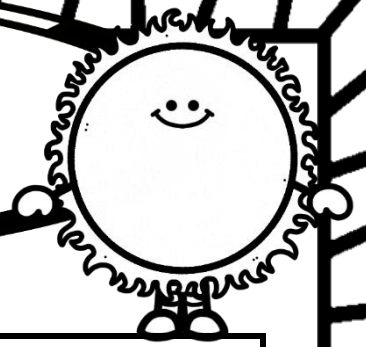

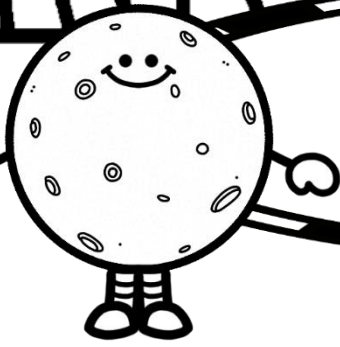

Universe

These are the sun and the planets in our solar system – they are our neighbours in space.

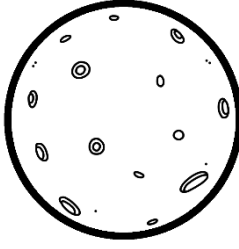

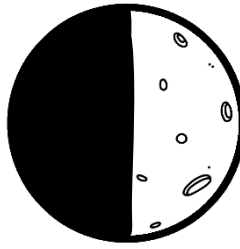

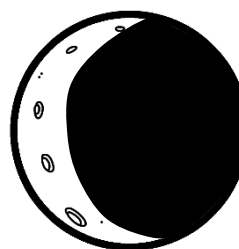

This is a picture of Saturn. It is different from all the other planets because it has rings around it.

The sun and moon

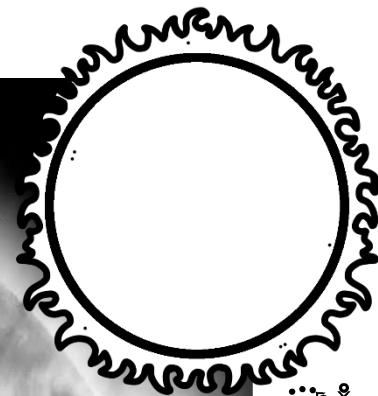

moon

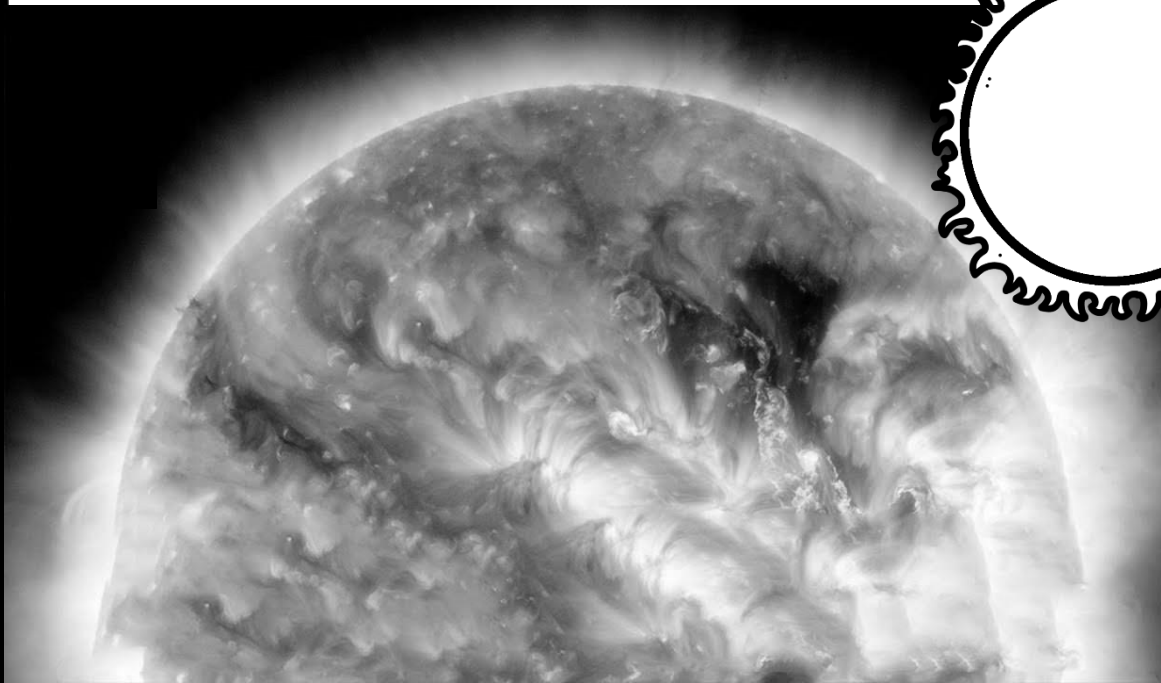

| | | |
|---|--|---|
|  |  |  |
| Full moon | Half moon | Crescent moon |

The moon is a large ball of rock and dust that sends out no heat. The moon does not have its own light. It is like a mirror that bounces the rays of the sun towards us. The moon is much smaller than the earth.

The sun is a star. It is like a large fireball that sends its heat and light into all directions. The sun is thousands of times bigger than the earth.

sun

Stars

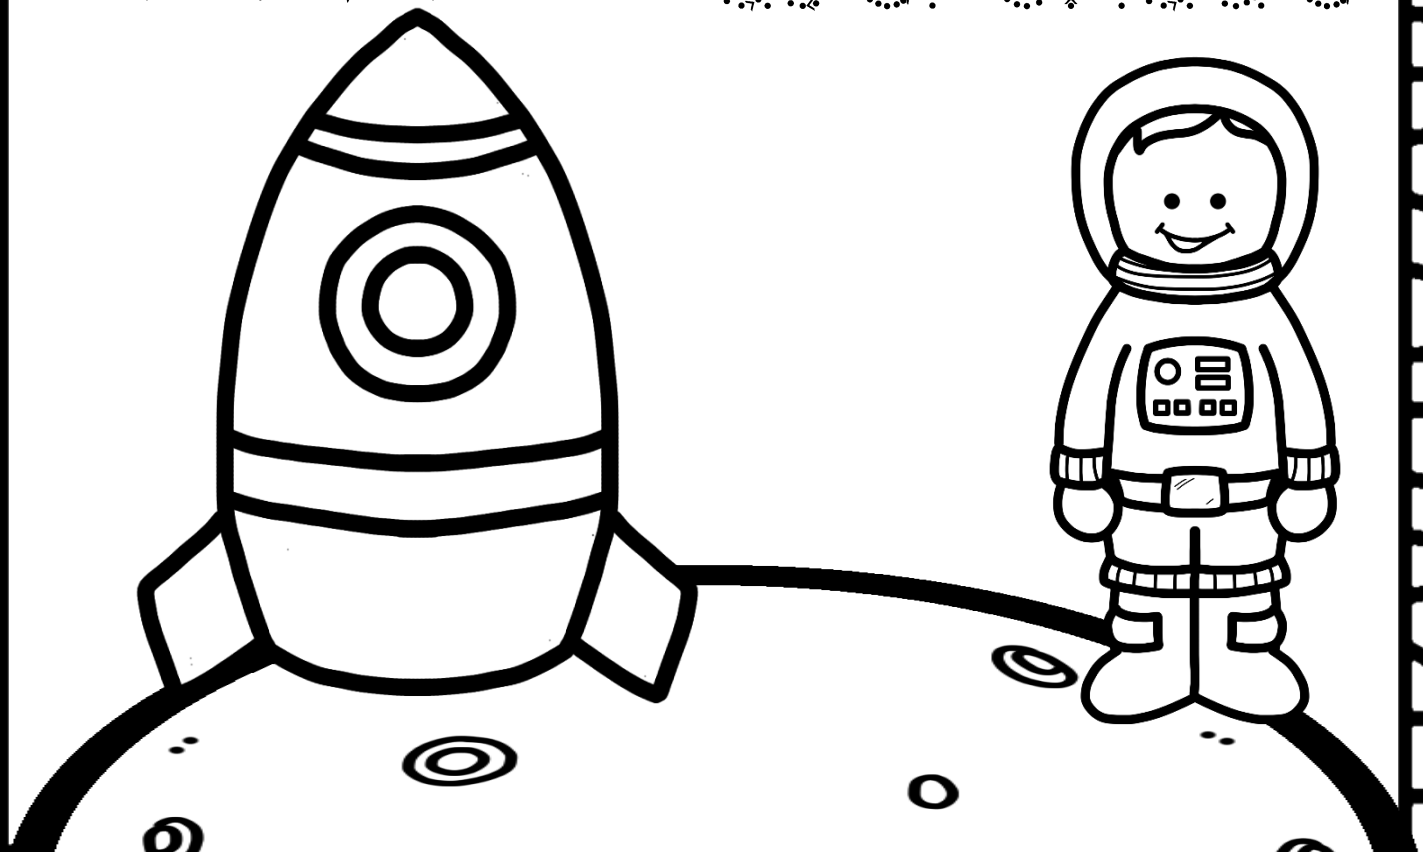

The sun is the nearest star to us. The other stars are very, very far from us.

Astronauts go into space with special rockets to find out more about stars.

When astronauts visit space, they put on special space suits.

rocket

astronaut

Cut the pictures out to create your own universe artwork. You can draw extra pictures. Your artwork should be colourful. Be creative.
