

Grade R

Months of the year

Name:

I know my months of the year  
(Draw over the dashed lines)

January

February

March

April

May

June

July

August

September

October

November

December

# Flashcards

## Months of the year

### Note for Mum / Teacher:

On the next pages follows the flashcards of the months of the year.

It works very well when cutting out the flash cards, sticking it to solid cardboard and then laminating it. The cards will then be handled easily if you have to show them to your child. I also added a set of flashcards with a colored frame, it is not necessary for an extra cardboard and can only be laminated.

### How to do the activity:

1. Show the learner the first flash card "January".
2. Read it to him / her and tell the learner he or she should return it to you. Let him / her say the word a few times.
3. Repeat with all 12 of the cards.
4. Next, you can go through the cards with him again, but this time he or she must try to read it. If he / she does not recognize the month, move to the next card until he / she recognizes a month.
5. You can also give the learner 3 months, and he / she must place it in the correct order. Start with a few months and then gradually make it more.
6. The activity will help the learner to recognize her months of the year slowly.
7. The flashcards can be practiced repeatedly.

Check out the following youtube link. Here is a nice way to sing the months of the year.
