

Music

Musical instruments

Use what you have at home for this activity, I used the following items:

1. Tin with a spoon
2. Xylophone
3. Drum
4. Plastic eggs filled with rice.
5. Bells

Allow your child to explore each instrument in his / her own time. My daughter loved the plastic eggs filled with rice. Discuss the different sounds which each instrument makes with your child. I left the instruments in the living room for the whole week to play with.
