

Water play Ocean animals

What you need:

1. Food colouring - blue
2. Ocean animal toys
3. Water
4. Foam bath
5. Container

Steps:

1. Add some bath foam to your container and then fill it with water.
2. Add a few drops of blue food colouring.
3. Add the toys to the water.

Show your toddler how to search for the toys in the foamy water.

As your child finds the different animals discuss the animals with him / her.

Let them explore and play with the toys and the foam!

Show your toddler how the animals swim through the water.

My daughter absolutely loved the foam!
